

SAVE THE DATE!

As part of the national Open Science Week (14–18 September), OSCN will host **two events on Thursday 17 September**. Join us for a day of learning and connecting with colleagues from across the Open Science Community Nijmegen.

Coding Café + lunch

Discover what metadata is, what information it should contain, why it is important, and how a tool can help automate metadata production. We'll conclude with a hands-on code-along where you can use the tool with your own project. **Bring your laptop!** Free pizza lunch included.

🍷 Community Café + drinks (from 16.00)

Celebrate Open Science Week with colleagues from HAN, Radboud University, Radboudumc and MPI. Community members will give short pitches showcasing their Open Science initiatives, projects, and experiences, offering a unique opportunity to discover what's happening across our institutions. Afterwards, stay for free drinks, bites, and informal networking.

More details, including the programme, locations and registration, will follow soon. For now, mark Thursday 17 September in your calendar!

OPEN SCIENCE AWARD RADBOUDUMC

During the Radboudumc Research Strategy Day (June 17th), the annual **Open Science Award** was presented. The award recognises teams that make an outstanding contribution to Open Science. This year, the focus was on **citizen science**, highlighting projects that actively collaborate with society to improve research.

The award was presented to **Jenneken Naaldenberg, Julia van Calis, and Kris Bevelander** of team [Gezondsterker.nl](#) (pictured on the right in the photo). [Gezondsterker.nl](#) is part of the **Sterker op eigen benen** initiative, which brings together patients, healthcare professionals, and researchers to improve healthcare for people with intellectual disabilities.

The other shortlisted initiatives were Meno Food, Project Madam, and Neurodiversity-OS. Together, the shortlisted initiatives showed how openness in research can take many forms. From co-creation with citizens and patients to the development of new tools, communities, and methods, the nominees demonstrated how engagement with society can strengthen both the relevance and the impact of research.

The Open Science Award is organised by the **Open Science Taskforce of Radboudumc** and is presented during the Research Strategy Day, alongside the **Supervisor of the Year Award** and the **Envision – Image of the Year Award**. This year's jury consisted of **Alessa Hering, Sanne Dekker, Dirk van Gorp, and Vera Poort**.

NEW OSNL FUNDING CALL

Open Science NL has announced its intention to launch a new [Open Science Infrastructure funding call](#) in **October 2026**. The programme will support the improvement and further development of existing digital infrastructures that enable Open Science, with a stronger emphasis on collaboration and consortium building in this second funding round.

The call has a **total budget of €17 million**, with up to **€1.7 million available per proposal**. It is open to a broad range of projects, from discipline-specific infrastructures to generic solutions that strengthen the Open Science ecosystem. The current provisional timeline includes:

- **October 2026:** Publication of the call for proposals
- **26 October 2026:** Optional online orientation session
- **3 November 2026:** Deadline for letters of intent and workshop registration (both mandatory)
- **2 December 2026:** Mandatory workshop
- **13 April 2027:** Proposal submission deadline

Please note that this is a **pre-announcement**. The final call for proposals and definitive application details will be published by Open Science NL at a later date.

JOIN AN OPEN SCIENCE NL ADVISORY PANEL

Open Science NL is looking for new members to join its advisory panels on **Citizen Science & Societal Engagement**, **Open Scholarly Communications**, and **Software, Hardware & Research Data**. Panel members provide strategic advice on work programmes, funding instruments, and emerging developments to help accelerate the transition to open science in the Netherlands.

The panels meet at least twice a year and welcome researchers, research support professionals, and practitioners from diverse backgrounds. For more information and application details, visit [the Open Science NL call for advisory panel members](#).

NEWS FLASHES

- The **National Open Science Festival 2026** is completely sold out. On 14 October 2026, 450 participants will come together at TU Delft to celebrate open science together.
 - **Workshop Opportunity:** On **24 September**, TU Delft is hosting a day of workshops on fostering a more inclusive, diverse, equitable, and open academia. [Click here](#) for more information and registration!
 - **Workshop Opportunity:** On **25 September**, PhD candidates are invited to an [interactive workshop in Leiden](#) on embedding Open Science into PhD trajectories and recognising the diversity of PhD talents.
