Open Science Community Nijmegen

YOU'RE INVITED: NATIONAL OPEN SCIENCE WEEK!

Dear community,

On behalf of the OSCN organising team, we are happy to invite you all to join us in celebrating the National Open Science Week!

To celebrate together as a community, we've organised **two special events on Thursday September 17**. We're excited to finally share them with you – you can find more information below.

Both events are **open to members and non-members**, so feel free to bring along a colleague or friend who might be interested as well. We'd especially love to see as many of you as possible at our **Community Café** in the afternoon – a great chance to meet, celebrate, and connect with others who are passionate about Open Science in Nijmegen.

We look forward to celebrating Open Science Week with you!

Warm wishes,

Anita, Max, Lieke, Tim & Karin
OSCN Organising Team

CODING CAFÉ - METADATA

Why metadata matters and how to automate its creation

11:30–12:30 | EOS N 00.330

Metadata helps others find, understand and reuse your research software, and can even help your work get more citations. But creating metadata can also feel like yet another administrative task on your to-do list.

During this hands-on **Coding Café**, we'll explore why metadata matters, what information you need, and how you can automate its creation. After a short introduction and demonstration of the tool, we'll get hands-on with a code-along so you can try it out with your own research software project. **So bring your own laptop!**

No need to be a metadata expert, just bring your project and your curiosity!

And of course, there will be **free pizza afterwards**

This event is sponsored by and in collaboration with eScience Center. **Registration is required for catering purposes.** Register here.

COMMUNITY CAFÉ

Everyone is welcome!

Please register here.

16:00–18:00 | EOS 01.220 & The Yard

Who are the people behind Open Science in Nijmegen, and what are they working on?

During our **Community Café**, community members from **HAN, Radboudumc, Radboud University and MPI** will take the stage for short presentations. They'll share their Open Science initiatives, experiences and tips - giving you a chance to discover what others are doing and **meet the people behind Open Science in our community**.

After the pitches (approximately around 16:45h), we'll move to **The Yard** for free drinks, bites and plenty of time to connect with colleagues.

NATIONAL OS WEEK: OTHER EVENTS

In addition to the two events we are organising during Open Science Week, we would also like to draw your attention to an event organised by the Digital Competence Centre (DCC) and events organised by other OSCs in the Netherlands.

GitHub or Codeberg? Digital Sovereignty in Research

Tuesday September 15th 12h – 14h, colloquium room 01.620, Maria Montessori building

What are the differences between GitHub and Codeberg, and what does digital sovereignty mean for researchers? Join us to explore both platforms, their pros and cons, and discuss what they mean for open and responsible research infrastructure. Click here for more information and the programme.

Events by other OSCs
